CABLE END FITTING RETAINER ASSEMBLY**ABSTRACT OF THE DISCLOSURE**

A cable end fitting retainer assembly for a vehicle includes a conduit end fitting for connection to a flexible cable. The cable end fitting retainer assembly also includes an end fitting retainer arm extending from the conduit end fitting for retaining a portion of the flexible cable in a predetermined position. The cable end fitting retainer assembly further includes a cable wire support extending from the conduit end fitting and located beneath the end fitting retainer arm to contact the cable.
